This is not finished and is just a draft for sure. I need your opinion about how it's arranged!

I've attached the final owner map and a history map that includes the purple hatched area. This map is more for your records than display in a meeting. I'll send the meeting appropriate history map next.

Please recheck the wording and parcel info. I'll be glad to change anything you'd like!

Thanks, Melody, good work! I'll just have to put the SDMS number for the missing book & page on the Temple Cotton deed.

Morning!

I filled in the book/page numbers on the attached document.

I looked at the deed but could not find the book/pg for

March, 1944 Temple Cotton to Gross & Janes (book? & p?) Lots 1-4

I noticed in your timeline that you listed the Gross/Janes to Hope Sept. 1966 Warranty Deed, but not the Feb. 1988 Deed of Release. If you need to include it, I've listed the book/page below. (I figure you don't need it since there wasn't a change in the property description.)

Gross & Janes to Hope Iron and Metal Co.

Warranty Deed, Book 337, pg 197

Deed of Release, Book 556, pg784

If I don't get the folder of deeds to your desk tonight, I'll leave it on my visitor chair.

Tomorrow I'll rework the maps and get them to you. I reviewed the boundaries again and feel great about them! ☺

Melody,

Please find the attached draft Enforcement Attachment. Could you add the book-and-page numbers to the bulleted ownership history on page 2?

Thanks!,

David Eppler
